

MARSHMALLOW MADNESS

Marshmallow Toss

Create a target... (It could even be someone's mouth!) and have students compete in a competition to see who can toss marshmallows in. Give them a time limit and have counters ready to take the official number of catches. Try it with both large and small marshmallows. It's also best to have the catchers spit out the large marshmallows, if they catch them.

Spiritual Application: Romans 3:23—We all fall short of the target of God's perfection.
