Static Pull

Call up two girl volunteers, both of whom have long hair and are willing to get their hair just a little messed up. Take two different balloons. One at a time rub the balloons on top of their heads and then lift the balloons just above their heads to see how high the static electricity will pull their hair.

Spiritual Application: Just like the static electricity is pulling up her hair, there is a pull that people feel towards God. Every one of us was created to live in a relationship with the Lord and when we don't have that relationship, no matter what else we might have, we will always feel like there is something missing in our lives. Some people try to fill this void with fame or money or worldly success or even drugs and alcohol, but there is only one perfect fit and that's Jesus. He's everything you've ever wanted in life and so much more. You were created to know and live for Him.
