

MARSHMALLOW MADNESS

Unique New York

Have a student put a large marshmallow in his mouth and say “Unique New York.” If there’s room, have him add one more and say it again. (In times past students would try to see how many marshmallows they could fit in their mouths, but this is not a safe game. A person can actually suffocate by getting too many marshmallows in their mouth and having one get lodged in their airway.)

Spiritual Application: What’s stopping you from talking about Jesus? What’s holding you back from sharing Him clearly? See Matthew 28:19-20 or Colossians 4:5-6.
