

Activity: **Valentine Cards**

Discussion: **This activity can work with any lesson on love**

## **Valentine Cards**

SAY: Around Valentine's Day many people think about the "hugs and kisses" type of love, but we want you to think about God's love and how you can share it with others. Today we're going to give you a chance to share God's love with someone by making a Valentine's card for them. You can make this for your mom or dad or a friend at school or even as a way to share Jesus' love with your school teacher. Instead of having your card say, "I love you," let it say, "Jesus loves you."

*(NOTE: If you have any left-over candy canes from Christmas or can still find any, you can have your students take two candy canes and put them facing one another upside down to form a heart that can be glued to the front of the card.)*
