

Field Goals

Illustration: Choose four volunteers. Give each two kicks at kicking a small or inflatable football through a small football goal.

Spiritual Application: Why does the ball come down? Gravity. This is a law of nature that God put in place. There are other laws that God put in place too. Is lying wrong? And in the same way, the ball will always fall to the ground, lying will always be wrong. Just like gravity doesn't change, right and wrong don't change either.
