

MARSHMALLOW MADNESS

Long-Distance Toss

Have each student find a partner. The partners will stand facing each other. Each will toss the marshmallow to his partner. If either of them drop it, they are out. (Be sure to do a few practice tosses before starting the game.) Those that remain each take one large step back and toss it again. They continue doing this until you only have one pair left. Let them keep going until they finally drop the marshmallow also. This is a great game for outdoors.

Spiritual Application: Psalm 103:12.
