## Poke Your Head

Hold up your thumb and index finger together to make a circle. Ask, “Who can poke your head through this hole?” Motion the hole toward your head. Call up a few volunteers to give it a try. Of course you can’t because your head doesn’t fit. So, is this impossible? No, it’s not and I’m going to show you. Put the hole to your head and using your other index finger, poke through the circle to touch your head. “I have poked my head through this circle.”

*Spiritual Application:* Just like your head really couldn’t fit through a hole this size, neither can a camel fit through the eye of a needle. (Show them a needle’s eye.) But listen to what Jesus said in Matthew 19:24 (Or, Mark 10:25 or Luke 18:25).
