

MARSHMALLOW MADNESS

Sort It Out

Choose several volunteers to be a part of a competition. Give each of them a pile of the small colored marshmallows. When you say go, their job is to sort them all into colors as quickly as they can.

Spiritual Application: As people, we all tend to be more comfortable with people who are just like us. "Birds of a feather, flock together." But how does God want us to treat others who are different than us?
