Two Hairs Fighting

Choose several volunteers to see the incredible event of two-hairs fighting. Have them gather around the table where they can see up-close. You have to be up-close to see it happen. Ask for hairs, preferably long hairs, from two volunteers. Pour part of a cup of water onto the table and put one hair in it. Tell the students to watch closely because after you put the second hair in, it might take a moment but then the two hairs will start fighting. Put the second hair in. Then slap the water with your hand, making it spray all over your volunteers.

Spiritual Application: You got tricked. Don't ever let Satan trick you. Listen to John 10:10.
